

**This product is an article. A safety data sheet is not required for this product.
This document is provided to instruct you how to handle this product safely.**

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product form	: Article
Trade name	: TWARON® PARA-ARAMID YARN / PULP / FIBER Excluding: Twaron Polymer PPTA powder, Twaron 1014/1015/5706/ 5711/5806/5811, Twaron 3515
Use of the article	: Strength member in various applications, Industrial and non-industrial heat resistant and flame retardant products.
Restrictions on use	: In the event that the product is to be used in special areas of application that differ from the abovementioned applications, including but not limited to applications regarding the food industry (in particular related to food contact) or the medical/surgical sector (in particular related to body fluid contact), prior consultation with Teijin Aramid is required.
Supplier	: Teijin Aramid BV T +3188 268 88 88 SDSinfo@teijinaramid.com

SECTION 2: Hazards identification

This product is an article and not a chemical substance or mixture. Therefore labelling as a hazardous substance/mixture is not required.
So far no impairment of health has become known in cases where the product has been used for its intended application
Short-cut fibers (with fiber length <15 mm) and Pulp contain Synthetic Polymer Microparticles (SPM).

SECTION 3: Composition/information on ingredients

Comments : Aramid (ISO 2076), Polymer.

Name	Product identifier	Conc. (% w/w)
Poly-(para-phenylene-terephthalamide)	(CAS-No.) 26125-61-1	> 30 – ≤ 98

SECTION 4: First aid measures

First-aid measures general	: In all cases of doubt, or when symptoms persist, seek medical attention.
First-aid measures after inhalation	: Remove person to fresh air and keep comfortable for breathing.
First-aid measures after skin contact	: If skin irritation occurs, wash thoroughly with soap and water.
First-aid measures after eye contact	: Rinse immediately with plenty of water. Contact lenses should be removed. If eye irritation persists: Get medical advice/attention.
First-aid measures after ingestion	: Rinse mouth with water.
Symptoms/effects after inhalation	: Dust from this product may cause irritation to the respiratory tract. Coughing, sneezes.
Symptoms/effects after skin contact	: Slight skin irritation has been observed in isolated cases. Itching. Rednesses.
Symptoms/effects after eye contact	: Dust from this product may cause eye irritation. Redness. Tears. Pain.

SECTION 5: Firefighting measures

Suitable extinguishing media	: Use extinguishing media appropriate for surrounding fire.
Hazardous decomposition products in case of fire	: Under fire conditions, hazardous fumes will be present: Carbon dioxide, Carbon monoxide, Nitrogen oxides, Organic compounds, Hydrogen cyanide.

SECTION 6: Accidental release measures

General measures	: Do not breathe dust.
Environmental precautions	: Discharge into the environment must be avoided.
Methods for cleaning up	: Carefully shovel or sweep up spilled material and place in suitable container. Minimise generation of dust. In case of dust formation, the use of a vacuum or local exhaust ventilation with high efficiency particulate air (HEPA) filtration is recommended.

TWARON® PARA-ARAMID YARN / PULP / FIBER

Article Safety Data Sheet

SECTION 7: Handling and storage

Precautions for safe handling	: Handle in accordance with good industrial hygiene and safety practice. Handle packaged products carefully to prevent accidental bursting. Use only in a controlled area. Provide appropriate exhaust ventilation at places where dust is generated. Filter exhaust air through a HEPA H13 filter (or better). Avoid contact with eyes and clothing. Clean up thoroughly after use. Use wet cleaning techniques or vacuum cleaners with HEPA filters for removal of dust.
Hygiene measures	: Do not eat, drink or smoke when using this product. Always wash hands after handling the product.
Storage conditions	: All bobbins, storage cartons and bales must be stored in compliance with the relevant regulations and in accordance with good handling and storage practice. Store in a well-ventilated place. Keep cool. Keep out of direct sunlight. Do not freeze.
Incompatible materials	: Strong acids. Strong bases.
Heat and ignition sources	: Do not expose to temperatures above 500 °C. To avoid thermal decomposition, do not overheat. In cases where the product is heat-treated at temperatures of >130 °C, the applied fiber finish may evaporate or decompose.

SECTION 8: Exposure controls/personal protection

Additional information	: Occupational Exposure Limit, Time Weighted Average (OEL TWA, 8h) - inhalable dust: 10 mg/m ³ . Users are advised to consider national Occupational Exposure Limits or other equivalent values
------------------------	--

Appropriate engineering controls:

Minimise exposure using measures such as closed systems, dedicated facilities and suitable general/local exhaust ventilation. Filter exhaust air through a HEPA H13 filter (or better).

Personal protective equipment:

Protective clothing. Wear protective gloves.

Hand protection:			
None under normal use. Slight skin irritation has been observed in isolated cases. If skin irritation occurs: Protective gloves			
Eye protection:			
None under normal conditions. Wear safety glasses with side shields in the vicinity of rapidly rotating yarn processing equipment			
Skin and body protection:			
Long sleeved protective clothing. Yarn which is processed at high speeds can cause abrasions and cuts. It is therefore advisable to avoid skin contact with these potential sources of injury			
Respiratory protection:			
No respiratory protection needed under normal use conditions. In case of insufficient ventilation, wear suitable respiratory equipment. This is required in cases where a maximum concentration of 1 RFP/ml of air is exceeded			
Device	Filter type	Condition	Standard
Dust mask, APF=10	Type P2	In the event of insufficient ventilation	EN 149

Personal protective equipment symbol(s):

Environmental exposure controls:

Avoid release to the environment.

Other information:

Handle in accordance with good industrial hygiene and safety procedures. During the processing and application of the fibers, small amounts of dust (including dust particles of respirable size) may be given off. A health risk caused by the inhalation of aramid dust particles does not exist if our safety instructions are observed. Fiber fly, dust and decomposition products of the fiber finishes must be avoided by ensuring adequate extraction and ventilation. Factory safety regulations must be strictly observed.

TWARON® PARA-ARAMID YARN / PULP / FIBER

Article Safety Data Sheet

SECTION 9: Physical and chemical properties

Physical state	: Solid
Appearance	: Filament yarn, Fibres, Tow, Cord, Granules, Pulp
Colour	: Various colours
Odour	: Slight
Melting point	: Not applicable (Decomposes)
Decomposition temperature	: > 500 °C
Density	: 980 – 1450 kg/m ³
Solubility	: Water: Negligible, Sulphuric acid: Soluble
Explosive properties	: Not explosive

SECTION 10: Disposal considerations

Waste treatment methods	: Dispose of contents/container in accordance with licensed collector's sorting instructions. If water is used for further treatment, be aware that it is possible that the additives from the yarn can be removed in an aqueous medium.
Sewage disposal recommendations	: If water is used for further treatment, the waste water generated by the process must be treated in a water purification plant in compliance with local regulations.
Product/Packaging disposal recommendations	: Empty containers should be taken for recycling, recovery or waste in accordance with local regulation. Keep container tightly closed. Do not rinse the container before disposal.

SECTION 11: Regulatory information

European Union

This product is an article as defined by REACH REGULATION (EC) No 1907/2006. Labelling according to CLP REGULATION (EC) No 1272/2008 is therefore not required. This document is provided in order to communicate information on substances in this article, in order to allow safe use in compliance with REACH REGULATION (EC) No 1907/2006 article 33.1.

Contains no substance(s) listed on the REACH Candidate List $\geq 0,1\%$ / Specific concentration limits

Contains no substance(s) listed on REACH Annex XIV (Authorisation List)

This product contains one or more substances subject to restriction (Regulation (EC) No 1907/2006 (REACH), Annex XVII):

Entry No 78: Short cut fibers (with fiber length <15 mm) and Pulp contain Synthetic Polymer Microparticles (SPM) as defined by REACH restriction Entry 78. Paragraph 1 (prohibition for placing on the market) of entry 78 is not applicable to articles. Paragraph 11 (yearly information pass on to the ECHA) is applicable for this product starting from 2027.

USA

This product is an article as defined by OSHA 29 CFR 1910.1200 paragraph c. According to 1910.1200(b)(6)(v), articles are exempt from hazard communication via GHS label and Safety Data Sheet. Labeling according to GHS is therefore not required.

This document is provided in order to communicate information on substances in this article, in order to allow safe use.

Canada

This product is an article as defined by Hazardous Products Act (R.S.C., 1985, c. H-3), paragraph 2. According to paragraph 12(i) manufactured articles are exempt from hazard communication via HPR label and Safety Data Sheet. Labeling according to HPR is therefore not required. This document is provided in order to communicate information on substances in this article, in order to allow safe use.

Mexico

This product is an article. "Articles" as defined in the Hazard Communication Standard (29 CFR 1910.1200) of the Occupational Safety and Health Administration of the United States of America, or by similar definition, are outside the scope of the GHS system. Labeling according to GHS is therefore not required. This document is provided to communicate information on substances in this article, in order to allow safe use.

National regulatory information: NORMA Oficial Mexicana NOM-018-STPS-2015

People's Republic of China

This product is an article. "Articles" as defined in the Hazard Communication Standard (29 CFR 1910.1200) of the Occupational Safety and Health Administration of the United States of America, or by similar definition, are outside the scope of the GHS system. Labeling according to GHS is therefore not required. This document is provided to communicate information on substances in this article, in order to allow safe use.

National regulatory information: GB 30000.2-29-2013

Japan

This product is an article as defined by JIS Z7252:2019. According to JIS Z7252:2019, articles are exempt from hazard communication via GHS label and Safety Data Sheet. Labeling according to GHS is therefore not required.

This document is provided in order to communicate information on substances in this article, in order to allow safe use.

Disclaimer

The information given in this Article Safety Data Sheet for Man-made Fibers refers exclusively to the fiber product described herein. It covers neither its use in combination with any other material/preparation/product nor its use in any process. The purpose of this Article Safety Data Sheet for Man-made Fibers is to make adequate and correct information available to commercial users of man-made fibers for the protection of human beings and the environment. The information given in this Article Safety Data Sheet for Man-made Fibers reflects the standard of knowledge of the party completing the sheet at the time of printing. It is not a contractual guarantee of product properties. It remains the user's own responsibility to make sure that the information is appropriate and complete for his special use of this product.
