

REACH Statement for the Clients of Teijin Aramid

(Version of 2018-03-09)

Under the REACH regulation of the European Union (EU), Teijin Aramid BV has three roles:

- Manufacturer
- Importer
- Downstream User

As **manufacturer** Teijin Aramid has registered the monomers PPD and TDC (intermediates that are also sold) as well as the products OPD, hydrochloric acid and sulphuric acid.

The polymer p-aramid (PPTA) that Teijin Aramid produces, requires no REACH registration.

The various Twaron® products (e.g. yarn and pulp), Sulfron® and Endumax® do not require registration as these are articles.

All packaging materials used for Twaron®, Sulfron® and Endumax® are REACH compliant.

Teijin Aramid is the **importer** and **distributor** of Teijinconex® and Technora® in the EU. These articles do not require registration in REACH. However, Teijin Aramid will register, if necessary, any substance that we import directly into the EU.

Also, Teijin Aramid is responsible for the **safety data sheets** (SDS) of its own product range. Extended SDSses (e-SDSses) and SDSses are available compliant with the REACH and CLP legislation. They will be modified if necessary.

As **downstream user** Teijin Aramid require from their suppliers compliance with the REACH regulation, e.g. registration before the relevant deadline, information about presence of SVHC's (Substances of Very High Concern) and up-to-date **safety data sheets** of their products.

Within Teijin Aramid procedures are in place to implement all requirements related to the REACH regulation.

For further information on REACH please contact your Teijin Aramid sales contact person.

For Teijin Aramid BV,

Dr. Ir. J.H. Boelee
Manager CSR/QHSE

Mr. E. Delnoij
Director Marketing & Sales
